This fund was for “the purpose of establishing and maintaining common schools.” The County Commissioners had a duty to “set apart annually ten percent of all moneys paid into the county treasury, received as taxes upon the property contained in each county; and the said money so appropriated, shall be paid over to the county treasurer, to be appropriated for the hire of school teachers in the several school districts, to be drawn in the manner hereinafter prescribed.” Sec. 5 of this bill stated that “All school moneys due each county in the territory, shall be paid over by the territorial treasurer to the county treasurers on the first day of May and the first day of November of each year, or as soon thereafter as the county treasurers may apply for the same, upon the warrant of the territorial auditor, drawn in conformity with the apportionment of the superintendent of public instruction, as provided for in section second of this chapter.”</p> <p>Article XI, Section 1 of the Nevada Constitution passed in 1864 provides for “assessment and taxation” “of all property, real, personal, and possessory, excepting mines and mining claims, the proceeds of which alone shall be taxed, and also excepting such property as may be exempted by law for municipal, educational, literary, scientific, religious, or charitable purposes”</p> <p>Article XI, Section 2 of the Nevada Constitution passed in 1864 states that the Legislature “shall provide for a uniform system of common schools, by which a school shall be established and maintained in each school district at least six months in every year .”</p> <p>The “First Annual Report of the Sup’t of Public Instruction, of the State of Nevada for the School Year Ending August 31, 1865, shows that Douglas County was apportioned \$87.30 in November 1864 and \$274.26 in July 1865 for schools.
